## **Notes the Statement of combined financial position**

### **II. ACCOUNTING PERIOD, CURRENCY**

#### **Annual Accounting period**

The Corporation's annual accounting period is according to the calendar year, starting from January 1 and ending on December 31 of each year .

#### **Currency unit used in accounting**

The accompanying Combined financial statements are presented in Vietnamese Dong (VND).

### **III. APPLICABLE ACCOUNTING SYSTEM**

#### **Applicable accounting system**

The Corporation applies Business accounting system of Viet Nam Issued under Circular No. 99/2025/TT-BTC dated November 27, 2025 of the Ministry of Finance on “Guidelines for accounting policies for Enterprises” and Circular No. 53/2016/TT-BTC dated 21/3/2016 of Ministry of Finance on guidelines, amendments to some articles of Circular No. 99/2025/TT-BTC .

#### **Statement of complying with the accounting standard and accounting policies**

The Corporation's Executive Board ensures that it has fully complied with the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting System issued and effective in preparing and presenting these Combined Financial Statements.

### **IV. ACCOUNTING POLICIES**

#### **Basis for preparing Combined financial statements**

The accompanying Combined financial statements are presented in Vietnam Dong (VND), using the historical cost principle and in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and other relevant legal relating to the preparation and presentation of the Combined financial statements.

The combined financial statements are prepared on the basis of combining the financial statements of the affiliated units and the financial statements of the General Office. Transactions and balances between the General Office and the affiliated units and between the affiliated units and each other have been eliminated when presenting the combined financial statements.

The accompanying combined financial statements are the combined financial statements of the Corporation, therefore, do not include the financial statements of the subsidiaries. Users of the combined financial statements should read them together with the combined financial statements for the first quarter of 2026 to have complete information on the financial position as well as the results of business operations and cash flows of the Corporation during the year.

#### **Equitization settlement**

At the date of issuance of this Report, the work related to the equitization settlement is still being carried out and the Corporation has not received a decision from the competent authority on approving the settlement of the value of the State capital portion at the official date of conversion into a Joint Stock Company.

#### **Estimates**

## **Notes the Statement of combined financial position**

The preparation of the combined financial statements in accordance with Vietnamese Accounting Standards requires the Board of Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements of the Corporation as well as the reported amounts of revenue and expenses during the financial year. Actual results may differ from the estimates and assumptions made.

### **Principles for definition of cash and cash equivalents**

Cash includes all cash on hand, cash in bank of the Company at the time of the Financial Statement.

Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

### **Financial investments**

Held-to-maturity investments comprise investments that the Corporation has the positive intent or ability to hold to maturity, including term deposits at banks held to maturity to earn periodic interest. Held-to-maturity investments are deposits with a maturity period longer than 3 months.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held- to-maturity.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

#### **Loans**

Loans are measured at cost less allowance for doubtful debts.

Provision for doubtful debts on the Company's loans is made in accordance with current accounting regulations.

#### **Investments in joint ventures, associates and other investments**

Investments in subsidiaries over which the Corporation has control, investments in associates over which the Corporation has significant influence are presented using the cost method in the Combined Financial Statements.

Distributions from the accumulated profits of the associates received by the Corporation after the date of acquisition are recognized in the Corporation's income statement for the period. Other distributions are considered as a recovery of investments and are deducted from the investment value.

Investments in Subsidiaries, Associates and other investments are presented in the balance sheet at cost less provisions for impairment (if any).

Other investment: These investments are stated at cost, which includes purchase prices and any directly attributable expenditures. After initial recognition, these investments are measured at cost less provision for diminution in value of the investments.

#### **Provision for impairment of investments**

Provision for impairment of capital contributions to joint ventures, investments in associates and investments in equity instruments of other entities is made when there is solid evidence showing a decline in the value of these investments at the end of the accounting period.

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

### **Notes the Statement of combined financial position**

Provision for doubtful debts is assessed and considered for receivables that are overdue and face difficulties in debt recovery, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

### **Inventories**

Inventories are valued at cost, for those which have costs higher than the net realisable value, it must be calculated according to the net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

### **Tangible fixed assets accounting and depreciation principles**

Tangible fixed assets are recognized at historical cost which are stated at cost less accumulated depreciation. Historical cost of a fixed asset includes all costs incurred by the Company to acquire the fixed asset up to the date it is ready for use.

Tangible fixed assets are amortized on a straight-line basis over their estimated useful lives. The specific depreciation period is as follows:

<b>Assets</b>	<b>Years</b>
Buildings and architectures	05 - 50
Machinery and equipments	05 - 20
Transportation means	06 - 30
Management tools	03 - 10

When a fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off and any gains or losses arising from the liquidation are included in other income or other expenses during the year.

---

### *Intangible fixed assets accounting and depreciation principles*

Intangible fixed assets of the Corporation is computer software which are stated at cost less accumulated amortization.

The cost of intangible fixed assets is all the costs that the Corporation has to spend to get it up to the time of putting the assets into the state of ready to use.

Computer software is amortized using the straight-line method over its estimated useful life of 5 years.

### **Investment real estate assets accounting and depreciation principles**

Investment properties are composed of land use rights, buildings and structures held by the Corporation to earn rentals or for capital appreciation. Investment properties held to earn rentals are stated at cost less accumulated depreciation.

The costs of investment properties comprise all the expenditures (cash and cash equivalents) paid by the Corporation or the fair value of other consideration given to acquire the investment property at the time of its acquisition or completion of construction.

The costs related to investment properties incurred after initial recognition must be recognized as operating expenses unless it is certain that these costs will increase the future economic benefits from the investment property beyond its originally property.

Depreciation: Investment properties for rental are depreciated using the straight-line method to allocate the cost over the estimated useful life. The Corporation does not depreciate investment properties held for appreciation. The depreciation period is as follows:

## Notes the Statement of combined financial position

	<u>Years</u>
Housing	40

Disposal: Gains and losses from the disposal of investment properties are determined as the difference between the net proceeds from disposal and the carrying amount of the investment properties and are recognised as income or expense in the Income Statement.

### Prepaid expenses

Prepaid expenses are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepaid expenses of the Corporation include: tools, instruments, repair expenses and other expenses.

Tools and supplies issued for consumption, repair expenses and other expenses which are amortized on a straight – line method with an allocation period not exceeding 36 months.

### Payables

The payables are monitored in detail by maturity terms, subjects, kind of currency and other factors according to management demand of the Corporation.

The payables include payable to suppliers, loans payables and other payables which are determined almost certainly about the recorded value and duration which are not less than the obligation payable, they are classified as follows:

- Trade payables includes commercial payables arising from the purchase of goods, services and assets between the Corporation and the seller (the independent unit of the Company, including amounts payable between the Holding company and its subsidiaries, joint ventures, associates).
- Other payables include non-commercial payables, non-related transactions of purchasing and selling of goods and services.

### Principles of Unearned Revenue Recognition

Unearned revenue includes: Revenue received in advance (advance payments received from customers over multiple accounting periods for activities such as leasing assets, infrastructure).

Unearned revenue is allocated using the straight-line method, based on the number of periods for which payment has been received in advance.

### Principles of Loan Recognition

Includes borrowings, excluding loans in the form of bond issuance or preferred shares with clauses obligating the issuer to repurchase at a specific point in the future.

The Corporation tracks loans in detail for each debtor and classifies them into short-term and long-term categories based on the repayment timeline.

Direct costs related to the loans are recognized as financial expenses, except for costs incurred from loans specifically used for investment, construction, or production of unfinished assets, which are capitalized.

### Principles of Accrued Expenses Recognition

Accrued expenses refer to actual costs that have not yet been paid but may be allocated to production and business expenses in the current period to ensure compliance with the matching principle between revenue and expenses. When these expenses are actually incurred, any discrepancies (if any) are either additionally recorded or reversed accordingly.

### Principles for recording dividends payable

### Notes the Statement of combined financial position

Dividends are recorded as Liabilities when there is a dividend payment notice from the Board of Directors of the Corporation and notice of the closing date for receiving dividends from the Vietnam Securities Depository Center.

#### Principle for recognition of owners' equity

Owners' equity is recognized as the actual capital contributed to the Company.

Profit after corporate income tax is distributed to shareholders after the allocation of funds in accordance with the Corporation's Charter, legal regulations, and approval by the General Meeting of Shareholders.

---

#### *Revenue recognition*

##### Revenue from sale of goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- The Corporation has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

---

##### Revenue from services

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the Combined balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- The percentage of completion of the transaction at the Combined balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

---

##### Construction Revenue

When the outcome of a construction contract can be reliably estimated:

- For construction contracts where the contractor is paid based on planned progress, revenue and expenses related to the contract are recognized in proportion to the work completed, as determined by the Company at the end of the accounting period.
- For construction contracts where the contractor is paid based on the value of work performed, revenue and expenses related to the contract are recognized in proportion to the work completed, as confirmed by the customer and reflected on the issued invoice.

### **Notes the Statement of combined financial position**

Adjustments to construction volume, compensation claims, and other revenues are recognized as revenue only when agreed upon with the customer.

When the Outcome of a Construction Contract Cannot Be Reliably Estimated:

- Revenue is recognized only to the extent of the contract costs incurred for which payment is relatively certain.
- Contract costs are recognized as expenses only when they are incurred.

The difference between the cumulative revenue recognized from the construction contract and the cumulative amounts invoiced based on the planned progress of the contract is recorded as a receivable or payable based on the planned progress of the construction contracts.

#### ***Revenue from Operating Lease of Assets***

Revenue from the operating lease of assets is recognized on a straight-line basis over the lease term. Lease payments received in advance for multiple periods are allocated to revenue in accordance with the lease term.

#### ***Financial Operating Revenue***

Revenue from interest income be recognized when these two (2) conditions are met:

- It is probable that the economic benefits associated with the transaction will flow to the enterprise;
- The amount of revenue can be measured reliably.

#### **Dividends and Distributed Profits**

Dividends and distributed profits are recognized when the Corporation has the right to receive dividends or profits from its capital contributions. Dividends received in shares are only recorded by the number of shares increased, the value of shares received is not recorded.

ares received is not recorded.

#### **Principle for recognition of the cost of goods sold**

Cost of goods sold is the total cost incurred of finished products, goods, services, investment real estate; production price of construction products in the period according to the principle of matching with revenue.

---

#### ***Financial expenses***

The following expenses are recognized as financial expenses:

- Costs related to lending and borrowing activities;
  - Losses from exchange rate fluctuations in transactions involving foreign currencies;
  - Other financial expenses.
- 

#### **Principles and methods of recording current income tax expenses**

Corporate income tax expense (or corporate income tax assets) is the total of current income tax expense and deferred income tax expense expected to be paid to (or recovered from) tax authorities when determining profit or loss for a period.

etermining profit or loss for a period.

### **Notes the Statement of combined financial position**

Current Corporate Income Tax Expense: This represents the corporate income tax payable calculated on taxable income during the period using the prevailing corporate income tax rate. The payable income tax is based on taxable income and the applicable tax rate for the reporting period. The difference between taxable income and accounting profit arises from adjustments made to reconcile differences between accounting profit and taxable income under the current tax regulations.

ations.

The company has an obligation to pay corporate income tax (CIT) for taxable income at the current tax rate of 20%.

The determination of the Corporation's income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of corporate income tax depends on the inspection results of the competent tax authority.

### **Related parties**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

They are subject to common control or common significant influence.

In considering the relationships between related parties, the nature of the relationship is given more importance than the legal form..

### **Segment Reporting**

A segment is a distinguishable component of the Corporation engaged in providing related products or services (business segment) or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and returns that differ from those of other segments. The Board of Directors assumes that the Corporation's production and operations are concentrated in the Hanoi city area while purchasing and consumption activities occur nationwide and abroad. Therefore, the Corporation does not present segment reports by business field or geographical area in accordance with Vietnamese Accounting Standard No. 28 - Segment Reporting.
